GET WITH THE PROGRAM

Want to get more out of your high-school education?

YOU can graduate from high-school with a nationally recognized FOCUS ON INFORMATION TECHNOLOGY [FIT] certificate. Think that Information Communication Technology [ICT] is boring? Think again. TECHNOLOGY is everywhere - from your favorite blogger to your latest smart phone, all industries are reliant upon ICT and need tech-savvy people to help run them. Recent graduates are finding success in all types of ICT careers:

Graphic Designer - \$48,000 average salary

Technical Support Analyst - \$57,000 average salary
Software Programmer Developer - \$67,000 average salary

Business Systems Analyst - \$71,000 average salary

Computer Network Technician - \$48,000 average salary

Software Engineer - \$75,000 average salary

Info. Systems Manager - \$86,000 average salary

Multimedia Developer - \$52,000 average salary

Did you know that ICT-related fields enjoy one of the highest pay-packets in the economy? The average earnings in the ICT sector are over 50% more than all sectors combined!
